Course Format

Action Selling Workshops are facilitated by professional Action Selling trainers. Training materials are designed to leverage adult student learning, to maximize student interaction, and to ensure trainers help students apply Action Selling concepts to their business and selling needs.

Before training begins – Students will complete a Benchmark Assessment, read the Action Selling book, and complete a short introductory eLearning course.

Workshops cover eleven Action Selling modules – where each module explores and reinforces the relationship between every customer’s 5 buying decisions and the 9 Acts of the Action Selling sales process.

After the workshop – Students will complete a 3 to 6-month Skill Drill program that reinforces Action Selling in their daily sales activities followed by a Skills Assessment that “takes the pulse” of the Student’s pre-certification knowledge and application.
